

The Basalt XL is a double-sided freestanding display with a modern industrial look for high-traffic locations. This version features three revolving panels with two eyewear rods each, for a total capacity of 108 frames. This version is the ideal solution to quickly and easily create additional eyewear presentation capacity and can be placed in your shop window or as a room divider inside your optical store. While this unit is used inside the store, it is fitted with sturdy wheels to easily move it around, or with leveling feet, to give it a stable fixed position.
